BIO

Composer, visual artist, multi-instrumentalist and vocalist with a penchant for 80's sounds and words, Charlotte Simon is co-founder of the electronic experimental music label MMODEMM and for years has improved the lives of Frankfurt's feelers by bringing brilliant lusty musicians (and tapes and vinyl) to the city clerks and sharks. Simon collaborates with co-conspirator Toben Piel, aka FM Aether, on the band, Les Trucs started in 2009 and internationally known for its infinite electronic wiring and outlandish choreography.

Operas, radio plays, and music for theatre are among Simon's solo musical metiers, and she is equally skilled at producing live sets for silent porno movies at film festivals as improvisations for her crowds of listeners, near and far.
