BIO

As the name states Live at Robert Johnson is the associated label of the respected venue in Offenbach and incorporates what the club stands for. The imprint has been establishing a solid ground for the new Frankfurt sound since 2009. By featuring internationally acclaimed artists LARJ has been providing DJs and audiences with essential tunes in an extensive range of high-quality house music. Laid-back dance-floor awareness with a sense for particularity in sound is what might describe best most of the releases and artists. A&R Oliver Hafenbauer and renowned residents of the club Ata, Chinaski, Massimiliano Pagliara, Orson Wells or Roman Flügel have been popularising the current states of affairs not only through releases but also by touring and showcasing around the globe. Designer and friend Michael Satter has provided a visual identity that follows the values of Live at Robert Johnson and the club itself: Stripped down with a feeling for the interrelatedness of things.
